man. To retain the wages of
braive dollars per week, is equimay then to fifteen dellars, on the POWDER. 2, New Bond St. RUGERE DU 600 Broadway, New Sole Agent for the Updat S my 20-5m.76 if any of the pre-rk for ten dollars, there in an hour's notice, to GRAIN ELEVATO

five times ninety could not effortually quark-our citizens against burglars, incomilaries, and pickpockets. Half a dosen sharp, slellful detectives, under such men as Braillay of Pink-erton, are worth more than 100 patrolmes, tur-catching burglars, thieves, pickpockets and rogues of every description. There is all the difference between a detective and patrolman for such process, as exists between a dog and a donkey for catching form. The latter might by some possibility get within reach of rev-mard and kill him with a kick-but the chances are nearly all the other way.

ard and till him with a tick—but the chances are nearly all the other way.

Bripsward, pirring russioners, \$12,000. The Compiroller, we fear, has made a big error in this estimate. There were 242 presoners in this estimate. There were 242 presoners in the Briscowell when we visited it a tew daysago, and the number couning in fully equals that of those discharged. The city pays Mr. Justice \$2,10 per week for boarding such of them, which comes to \$508 per week for the lot, or \$25,426 per year, which exceeds the Comparolier's estimates by \$14,426. We have no idea that the number will average much less than at present. The class of people who fill the Bridewell, when arrested are mable to pay their fines, and costs, and, are, obliged to work them out at the rate of half a dollar per day. Times are not likely to grow much easier for the poorer classes this year. The Bridewell will be full to overflowing all this sammer, next fall and winter. What is to be done! We answer out down the price of board. The city is paying Wm. Justice \$2,10 per week for each prisoner, malk or female, sick or well. It fargishes him with his boose rehi free, with his prisoner, mails or female, sick or well. It fur-sishes him with his bouse real free, with his cooks free stave and fuel free, and pays him a malary of \$400 femicles. He is at not a dollar of expense, except to furnish raw food, which con-sists of polations at 16 to 18 cents per leaded; coarse refuse chanks of betchere beef, worth 3 to 3; cents per pound, and \$5,00 per barrel flour, corn meal at \$1,00 per 100 pounds, and common coffee. The prisoners at breakfast, get a cup of coffee, a piece of bread and either a potable or a piece of meat, but not both. For dinner, water, piece of bread and meat, and two or three potations. For supper, a cents worth of

dollar!
It now only remains to be seen how fa It now only remains to be seen how far the council is willing to saye the people's pockets, and redeem Republican pledges of retrement and referm, to show the public whether the Democratic are the tax-enters or whether Republicans in power, become also tax-enters. The Trinum has done its duty in the premises, fear-lessly. Will the city legislature do its part Websew that the Mayor is on the side of radical retrementment and reform.

THE SWILL MILK WAR.

The exposures recently made in New York, by "Frank Lesie's Historical Nisspaper." In the vite and poissoness character of the mik which has been supplied to limit city for the pass lev grears, has created much excitement not only there but throughout the country. This recitiement him naturally extended to this city, and predeser an anxiety to know what is the character of the milk which we are flaily consuming. A lew days since an article appeared in the Chicago Descover to the effect that the milk, supplied from what are known as Swill or Distillery Milk. This accessation produced a marked effect upon the sale of Elgia Milk, and the persons engaged in aciliar milk from these dairies, desmed it due to themselves as well as their former and present customers, that these charges should be met without delay by a thorough, fight investigation. On fluraday we were waited upon by one of the agents in the city, with a request that a persons contained to the different dairies in the four pass farted on his voyage of disquery. At the depot in Elgiu he was need by Mr. Jankus Sucre. of Hanover, who had a tour in readiness to fake him to the different dairies in the fown of Hanover, who had a tour in readiness to fake him to the different dairies in the town of Hanover in this county. The roads were in a terrible condition from recent heavy rains, and his progress was consequently above, but, under the judicious guidance of Mr. Smith, very ware All whom he visited manifested the utmost desire that every thing should be seen, and he is called market that no pains had been taken to All whom he visited manifested the utmost desire that every thing should be seen, and he is quite sure that no pains had been taken to pat the cattle and stables in a holliday condition. Probably nomore unfavorable films could have been chosen for the dairymen themsalves than the day on which the investigation was made, as the extreme bad weather for the last two months had sendered every cow stable and barn yard more unaffective than they could have possibly been at a more congental season of the paut.

We visited, in company with Mr. Smith, the following dairies in the town of Hapquer, and the result of our investigations we give briefly in detail:

1. Principle of the part.—Mr. Smith beeps 24

1. Printers H. Shiff.—Mr. Smith keeps it cows milks 25, who have the range of 60 acres of pasture, clover and timothy. He smide 60 gallons of milk per day to T. H. Wanner, corner of Des Plaines and Yea Eurem streets, in this city. In the winter he feeds brain, shorts and meal, with a liberal quantity of hay. His stables are in a clean condition, well versitated. He cools his milk by means of tooks, into which fresh cold water is introduced two or three times during the process of occling, the milk being occasionally stirred. Is this system the milk is kept all night, mill smally to short for the railroad. Hr. Smith's cows are clean and thest, in architect condition, and no sub tails and this is true of all we yielted.

osuiffully located. He milks 21 counts 55 gailions of milk to L. H. War ton. His process well, same as Mr. Sa excellent quality.

5. A. D. Gurenbe-Mr. Hifts of sile arres, of which 130 are has the largest number of gov man that sends ralls from Elgi 6. J. F. Cook - Mr. Cook milks 18 e

7. R. Vasey-Mr. Vorey is an English date: man add sells his own milk on North Wells street, one block north of the Galona depot He has a farm of 350 acres, of which about

now sending a fills to market, but will com-mence in a few days to supply I. H. Wanzer corner of Desplaines and Van Buren streets He has 16 cows and will send 30 gallons. Mr. T. has 45 agrees of pasture, white and red clover. Feeds shorts, bran and potatoes in winter

winter, and occasionally corn and pointo His stables are roomy, closs and well ventilate He scolade milk by a well-of the coolest water

assured by him that he furnished not one drop of slops to any dairy man that sends milk from Eigin. He wattening earlie for beef and nothing else, with the superpion of his own cown to which he feeds stops, condiently believing that it is the best feed they can have. In this opinion we certainly differ from Mr. Lawrence. He sends no milk to market.

This completes the list of dairies which we were able to impost. Henry Sherman, Oscar Lawrence, Francis Paddleford, Colten Know and Mr. Ballard are also dairymen in High and vicinity, but we had no time to visit and inspect their premises. We will say, however, that we were assured by gentlemen in whom we have every confidence, that they all would compare favorably with those which we visited. The cown are all pastured in the summer, mostly on cleves and simpthy, whichever of cal-

Connell want the cost of digting Bridewell following dairies:

Comptrollers estimates, they had better make no more delay is reducing fig price paid for boarding to some where in the vicinity of a dollar a week.

We will now recapitalist the various sarings that we have pointed out that might be made, in this and previous articles, vir:

We will now recapitalist the various sarings that we have pointed out that might be made, in this and previous articles, vir:

Marris of Egin, of which he was formerly him, and during the south it will be first to f. H. Wanzer, corner of Van Buren and Desplaines street, in this city.

Mr. Kimball has one of the heat places for cooling which sould be conserved—a spring of There will to a meeting this Mayor. He keeps 35 cows, mlike 25, and sends Wiggins saling underneath. I adjustions of mirk to E. H. Wanzer, corner of Jured, and was placed under the cooling which could be conceived—a spring of the very coolest and purest water, which part-ly supplies the city of Algin with water. The water iscommunity undergoing a change and of course the cooling is perfect. Mr. K. has

ver. Feeds shorts, bran and potatoes in winter.
Stables in good condition.

11. E. W. Wilcox. Genz. Wilcox has 30 cows, milks 20, and sends 44 gallong daily to 1. H. Wanzer, corner of Van Buren and Desplayes streets. His cown have the "" of 150 serps of nasture. He finds corn and oats, hair and list, and shorts and bran, half-and-all, in the

He sectable milk by a well of the coolest water from Wilcox has a very large and beautiful farmy with every confort and convenience.

12—BENTAMIN COX.—Mr. Cox milks 16 cov and sends 32 gallons of stilk to C. Kurt, in the block north of the Galena depot, North Well street. He has 40 acres of pasture; cows it good condition. Stables in fair condition leads som, oats, bran, &c., in the winter Milks in the field.

18-10 H. LICKEN.—Mr. Larkin keeps 2 tows, and milks 20. Sends 45 gallons to 1 H. Wanzer, corner of Van Buren and Desplaine streets. Mr. L. has a spiendid farm of 280 streets. Mr. L. has a spiendid farm of 280 streets. Mr. L. has a spiendid farm of 280 streets. Mr. L. has a spiendid farm of 280 streets. Mr. L. has a spiendid farm of 280 streets. Mr. L. has a spiendid farm of 280 streets. H. Wanzer, corner of Van Buren and Despinings streets. Mr. L. has a spiendid farm of 280 acres, 140 of which is pasture. Feeds corn, oats, bran, shorts, and some roots. His process for cooling in course of erection, is by a well of cool water, similar to others. Mr. L. has a commedicus new satalic, assayly finished, which, when completed will be perfect in all its points.

which, when compared with a percent its points.

14.—B. F. Lawjonce's Distriction.—We visited the distillery of Mr. Lawrence, and were assured by him that he furnished not one drop

of course the cooling is perfect. Mr. K. has some two or three hundred seres of pasturage, and in ginter feeds corn meal, shoels hern, dec. Mr. Kimball has a very fine lot of cows.

9. James Tondamilk 15 cows but keeps 22, milks in the pasture. He shads from 50 to 66 gallons per day to Williams & Co., 411 State ittreet. In winter he feeds corn and onts ground together, with clover. His 50 acros of pasture. Stables very neat, and well wentifield. His cooling operation is by a well, similar to others named.

10. J. M. Throwsell. Mr. Tredwell is not move sending a milk the market, but will come.

bought them in New York. He was committed in default of \$500. The articles are two black broad, short costs, and a black rotton veivet yest, with a small wide flower.

A Number likeway.— Numerous assess of crueky to animals, have been forced upon our notice largly for the practices of certain men who drive their calves to market their neck and heels together. This abouid be attended to; but there is another aspect of the case throtving considerable cruekty to human beings. A large number of these little beasts are killed so young that they are not if to be easier; and matters have come to such a pass that butcher's calves are nearly as small in proportion as those of dendies.

In these directing tances, an appropriate apostroph, for a man, on sitting down to a yeal satisfy, resuld be.—"Cume weal, Come wee!"

Mr. Gazzerras Exappess.—Musical Union Rall was crowded on Sciencity syening with an appreciative anchonce, who listened with a great drill of pleasure to the readings of this gentleman, He has a well trained roice, capable of giving great vasicy of expression. He read Peels "Ballys" in a materiy manner. The "Trial Scene" and "May Quicin," though of very different style, were squally well conceived, and pronounces. Mr. G. still reads in the case of the special and the pleasure of instruction in clocution will do we to give him a call, at the hickmond House. themselves of instruction in elecution will do west to give him a call at the Richmond House.

Cook Circuit Course—Judge Munierre adjourned his court on Saturday for the term.

Singe the commencement of the term on the first Monday in April, nearly law, thousand cases have been disposed of by trial, dismissal, default or continuation.

The following order was directed to be enforced on second on first June, 1858, viz.

Ordered that the Corr of this Court allow an across to have absorbed and the court of the sufficient of the definition of the court for sublication, and that any recomberation manifest ones, problemies, chall be deemed suited.

the Triums to collect subscriptions.

Largery — A man who gave the name of McBride was brought before the Police Court on Saturday upon a charge of stealing clothing. He was found upon a charge of stealing clothing. He was found to the manner in which he became possessed of his garments, told two or three different stories about the matter. First, that he manufactured them him.

garments, told two or three different stories about the matter. First, that he manufactured them him self on Sights street; excit, that the manufactured them him self on Sights street; excit, that they were made for him at Chutham, New Jersey, and finally that he bought them in New York. He was committed in default of \$500. The articles are two black bread, short costs, and a black potter veivet vest, with a manufactured them.

A Numeron Expose. Numerons cases of crueky to animals, have been forced upon our notice farely in the practices of certain men who drive their caives to market themselt and hoels together. This abould be attended to; that their is notther aspect of the case involving considerable creative on manufacture and pour own inclinations permit it, to the case involving considerable creative humans are killed so young that they are not fit to be eater; and matters have cometo, such a page of the precious of the very agreeable duty assigned as a preferring the very agreeable duty assigned in the case involving considerable creative on the constitution of the very agreeable duty assigned as the case involving considerable creative on the constitution of the total part of the case involving considerable creative on the constitution of the city, the undersigned was appointed a committee of the case involving considerable creative on the city.
